FICHE FORMATION

New Training 2025 Success Rate, Completion Rate, and Recommendation Rate in Progress

TRAINING DURATION:

- **Duration:** 16 hours over 2 days
- **Schedule:** 9:00 AM - 6:00 PM
- **Dates:** July 4th-5th, 2024

TARGET AUDIENCE AND PREREQUISITES:

- **Dentists, Endodontists, and Oral Surgeons.**

FORMAT:

- **In-Person**

LEARNING OUTCOMES:

- Develop the skills required to perform dental autotransplantations, whether for adolescents or adults.
- Understand indications, contraindications, operative protocols, and surgical sequences for both freehand and guided surgery approaches.
- Gain insight into the healing processes involved in autotransplantation.
- Introduction to intentional reimplantation treatment techniques.
- Receive comprehensive theoretical training, enriched with clinical case presentations.
- Master 3D planning for autotransplantation.
- Learn to prevent and manage complications associated with autotransplantation procedures.

CONTENT:

- Voir le programme page 3

FEE:

- **1400€**

REGISTRATION PROCEDURES:

- **Register by email at contact@phtraining.fr or directly on our website phtraining.fr.** Your registration will be confirmed upon receipt of the registration form, the required administrative documents listed in the form, and full payment of the training fee.
- **Each session is limited to 10 participants.** If your chosen session is full, you will have the option to join the next available session of your choice.
- **For inquiries, email us at contact@phtraining.fr.** A trainer will respond to analyze your needs and provide tailored guidance.

FICHE FORMATION

**New Training 2025
Success Rate, Completion
Rate, and Recommendation
Rate in Progress**

TEACHING METHODOLOGY:

- **Theory:** In-person theoretical courses to gain a solid understanding of dental autotransplantation and ask all your questions.
- **Practical Workshops:** You will perform guided autotransplantation planning on a computer and practice an autotransplantation procedure on a 3D-printed model.
- **Course Materials:** A comprehensive theoretical and practical course guide will be provided.
- **E-learning Platform:** Enjoy exclusive access to an e-learning platform with course summary sheets for review.
- **Knowledge Assessment:** An initial knowledge evaluation questionnaire, followed by self-assessments with detailed corrections after each section. A final knowledge assessment will be conducted at the end of the training.
- **Feedback Questionnaire:** Participants will complete a feedback and review questionnaire about the training.

TEACHING TOOLS AND MATERIALS:

- **Online Courses:** Access course materials directly on our website.
- **Private Support Group:** Join a private WhatsApp group for practitioner support and collaboration.
- **Clinical Case Exchange:** Gain access to our private Discord channel for sharing and discussing clinical cases.
- **Live Knowledge Assessment:** Participate in online quizzes through Wooclap to track your learning progress throughout the training.
- **Practical Workshop Equipment:** Workshops include access to a computer workstation, implant motor, 3D-printed dental models, and surgical equipment.

TRAINING ASSESSMENT METHODS:

- **Final Exam:** Multiple-choice questions (MCQs) and short-answer questions.
- **Certification:** Participants will receive a training certificate upon completion of the program.

ACCESSIBILITY :

- **Our facilities are equipped to accommodate participants with reduced mobility. Please inform us in advance so we can adapt our resources to your needs.**

PROGRAMME

This dental autotransplantation training, led by Dr. Adel Hamdani and Dr. Adriana Castro Calderon, is tailored for dentists, endodontists, and oral surgeons aiming to incorporate this technique into their daily practice.

THEORY MODULE

Duration: 1 day

DIGITAL WORKFLOW MODULE

Duration: 1 day

+ HANDS-ON PRACTICE

PH Training SAS

SIRET: 913220802 00015 - APE: 8559A - N°Organisme de formation: 11756555775

142 Boulevard Vincent Auriol 75013 Paris

phtraining.implant@gmail.com

PROGRAMME

THEORY MODULE

Duration: 1 day

- Acquire the theoretical foundation necessary for performing dental autotransplantations.
- Master case indications.
- Learn surgical protocols.
- Anticipate and manage complications.

PH Training SAS

SIRET: 913220802 00015 - APE: 8559A - N°Organisme de formation: 11756555775

Dr. Adel HAMDANI

Hospital Practitioner in Oral Surgery
(Hôpital Charles Foix)

Former Assistant Professor in Oral Surgery and Implantology
(Université Paris Cité/Hôpital Charles Foix)

University Diploma in Implant Surgery and Prosthetics
(Université Paris Cité/Hôpital St Joseph)

Postgraduate Certificate in Oral Surgery
(Université Paris Cité)

Advanced University Diploma in Oral Surgery
(Université Paris Cité)

Private Practice in Oral Surgery
(Paris)

Dr. Adriana CASTRO CALDERON

European Master in Endodontics
(Universitat Internacional de Catalunya, Barcelona)

Master's in Oral Surgery and Implantology
(Universidad Complutense de Madrid)

Specialist in Oral Medicine
(Universidad Complutense de Madrid)

Collaborating Professor
(Universidad Rey Juan Carlos, Madrid)

Scientific Article Reviewer
(Mississippi International Institution, Madrid)

Private Practice
(Journal of Esthetic and Restorative Dentistry)
(Clinical Implant Dentistry and Related Research)
(Madrid)

Discover the complete process of dental autotransplantation, from 3D planning to a detailed surgical protocol.

Dr. Adel Hamdani and Dr. Adriana Castro Calderon will guide you through mastering the key steps, teaching you how to anticipate, prevent, and manage potential complications to ensure optimal outcomes. They will share proven tips and practical advice to help you confidently start performing autotransplantations, supported by real clinical cases and valuable feedback from their extensive experience.

This training is designed for practitioners seeking to build solid expertise and rapidly progress in this innovative technique, under the mentorship of two recognized experts in the field.
